

(An Exploration Stage Company)

CONDENSED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

FOR THE PERIOD ENDED MARCH 31, 2015

**NOTICE OF NO AUDITOR REVIEW OF
CONDENSED INTERIM FINANCIAL STATEMENTS**

Under National Instrument 51-102, Part 4, subsection 4.3 (3) (a), if an auditor has not performed a review of the condensed interim financial statements, they must be accompanied by a notice indicating that an auditor has not reviewed the financial statements.

The accompanying unaudited condensed interim financial statements of the Company have been prepared by and are the responsibility of the Company's management.

The Company's independent auditor has not performed a review of these condensed interim financial statements in accordance with standards established by the Canadian Institute of Chartered Accountants for a review of interim financial statements by an entity's auditor.

GWR RESOURCES INC.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

FOR THE PERIOD ENDED MARCH 31, 2015

1. NATURE OF OPERATIONS AND THE ABILITY TO CONTINUE AS A GOING CONCERN

GWR Resources Inc. (the "Company") was incorporated in British Columbia under the Business Corporations Act. The Company is in the business of exploring for and evaluating economically viable mineral properties in Canada.

The Company's head office, principal, registered and records office is 733 – 510 West Hastings Street, Vancouver, BC V6B 1L8.

The Company is in the process of exploring and evaluating its resource properties and has not yet determined whether the properties contain mineral reserves that are economically recoverable. The recoverability of the amounts shown for exploration and evaluation assets are dependent upon the existence of economically recoverable reserves, the ability of the Company to obtain necessary financing to complete the development of those reserves and upon future profitable production.

These condensed financial statements have been prepared in accordance with accounting principles applicable to a going concern, which assumes that the Company will realize its assets and discharge its liabilities in the ordinary course of business. At March 31, 2015, the Company has a working capital deficiency of \$358,648, has an accumulated deficit of \$44,168,656, and expects to incur further losses in the development of its business. Moreover, the Company has an outstanding debt in the amount of \$85,920 to a third party which is in default. These conditions indicate the existence of material uncertainties that may cast significant doubt about the Company's ability to continue as a going concern.

The Company's continuing operations and its ability to discharge its liabilities and fulfill its commitments as they come due, is dependent upon the ability of the Company to continue to obtain debt or equity financing in the short term, the continued support of related parties, and ultimately, on locating economically recoverable ore reserves in its mineral properties. Management believes the Company will be successful at securing additional funding, however, there is no assurance that such plans will be successful.

If the Company is unable to obtain adequate additional financing and the continued support of related parties, the Company will be required to curtail operations and exploration activities. Furthermore, failure to continue as a going concern would require restatement of assets and liabilities on a liquidation basis, which would differ significantly from the going concern basis.

The financial statements do not include adjustments to amounts and classifications of assets and liabilities that might be necessary should the Company be unable to continue operations.

2. BASIS OF PREPARATION

Statement of Compliance

These condensed consolidated interim financial statements, including comparatives, have been prepared in accordance with International Accounting Standards ("IAS") 34 'Interim Financial Reporting' ("IAS 34") using accounting policies consistent with the International Financial Reporting Standards ("IFRS") issued by the International Accounting Standards Board ("IASB") and Interpretations of the International Financial Reporting Interpretations Committee ("IFRIC").

Basis of Presentation

The condensed interim financial statements have been prepared on a historical cost basis. In addition, these condensed interim financial statements have been prepared using the accrual basis of accounting, except for cash flow information.

Use of Estimates and judgments

The preparation of these condensed interim financial statements requires management to make certain estimates, judgments and assumptions that affect the reported amounts of assets and liabilities at the date of the financial statements and the reported expenses during the period. Actual results could differ from these estimates.

Significant assumptions about the future and other sources of estimation uncertainty that management has made at the end of the reporting period, that could result in a material adjustment to the carrying amounts of assets and liabilities in the event that actual results differ from assumptions made, relate to:

GWR RESOURCES INC.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

FOR THE PERIOD ENDED MARCH 31, 2015

2. BASIS OF PREPARATION (cont'd...)

Use of Estimates and judgments (cont'd...)

Critical accounting estimates

- i. The determination of income tax and possible penalties, interest charges and indemnification provision related to over renounced flow-through shares under the look-back rule is inherently complex and requires making certain estimates and assumptions about future events. However, changes in facts and circumstances as a result of income tax audits, reassessments, jurisprudence and any new legislation may result in an increase or decrease in our provision for income taxes and related charges.

Critical accounting judgments

- i. The carrying value and recoverability of exploration and evaluation assets requires management to make certain estimates, judgments and assumptions about each project. Management considers the economics of the project, including the latest resources prices and the long-term forecasts, and the overall economic viability of the project. Management has assessed these indicators and does not believe an impairment provision is required.
- ii. There is judgment required in determining whether exploration expenditures are eligible costs for renunciation.

New standards, interpretations and amendments adopted

The accounting policies adopted in the preparation of the condensed consolidated interim financial statements are consistent with those followed in the preparation of the Company's annual consolidated financial statements for the year ended September 30, 2014. There were no new standards and interpretations effective as of January 1, 2015 that would be applicable to the Company.

New standards not yet adopted

The following new standards, amendments to standards and interpretations have been issued but are not effective during the period ended March 31, 2015:

IFRS 9	New financial instruments standard that replaces IAS 39 for classification and measurement of financial assets(i)
(i)	Effective for annual periods beginning on or after January 1, 2018

The Company anticipates that the application of these standards, amendments and interpretations will not have a material impact on the results and financial position of the Company.

3. RECLAMATION DEPOSITS

The Company is required to make reclamation deposits in respect of its expected rehabilitation obligations. The reclamation deposits represents collateral for possible reclamation activities necessary on mineral properties in connection with the permits required for exploration activities by the Company. The Company is contingently liable to the HSBC Bank of Canada in connection with letters of guarantee issued by the bank on behalf of the Ministry of Mines in the amount of \$110,000 (September 2014 - \$110,000). The letters of guarantee are secured by certificates of deposits.

5. EXPLORATION AND EVALUATION ASSETS

	<u>Lac La Hache</u>
Balance, September 30, 2014, and March 31, 2015	\$ 2,488,909

Lac La Hache

The following descriptions apply to adjacent properties in the Clinton Mining and Cariboo Divisions located near Lac La Hache, British Columbia:

a) Miracle/Murphy

The Company owns a 100% interest in four mineral claims located in the Clinton Mining Division of British Columbia, located near Lac La Hache. Under the terms of an agreement dated October 27, 1994, there is a 1% net smelter return ("NSR") due to the original vendor to a maximum of \$1,500,000.

b) Peach Lake

The Company owns an 80% interest in seven mineral claims located in the Clinton Mining Division of British Columbia, located near Lac La Hache. Under the terms of an agreement dated December 1, 1994, there is a 3% NSR due to the original vendor on four of the seven claims to a maximum of \$500,000.

c) Ann

The Company owns a 100% interest in two mineral claims located in the Clinton Mining Division of British Columbia, located near Lac La Hache. Under the terms of the agreements, the Company is not required to pay a NSR to the original vendor.

d) Murphy Lake

The Company owns a 100% interest in six mineral claims located in the Cariboo Mining Division of British Columbia, located near Lac La Hache. Under the terms of an agreement dated June 3, 1997, the Company has agreed with the original vendor to issue 300,000 common shares, when it is confirmed that an ore body exists and the plans to commence commercial production are in place, and pay a 3% NSR to a maximum of \$1,000,000. No shares have been issued to the date of these financial statements.

e) PMA/Cassidy

The Company owns a 100% interest in four mineral claims, located in the Cariboo Mining Division of British Columbia, located near Lac La Hache. Under the terms of the agreement dated February 14, 2000, the Company is not required to pay a NSR to the original vendor.

f) Candorado Option Agreement

During the year ended September 30, 2012, the Company and Candorado Operating Company Ltd. entered into an option agreement whereby the Company acquired a 100% interest in certain unpatented mineral claims located east of Williams Lake, BC, near Lac La Hache. Consideration issued and paid was as follows:

- Cash payments of \$870,000;
- Common shares, issuance of 2,400,000 common shares, valued at \$600,000; and
- Share purchase warrants, issuance of 2,000,000 share purchase warrants with each warrant exercisable to purchase one additional common share at an exercise price of \$0.40 until January 2014. These warrants were valued at \$144,000.

The agreement was originally subject to a 2% NSR but this was waived by the vendor in an amendment to the agreement.

GWR RESOURCES INC.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

FOR THE PERIOD ENDED MARCH 31, 2015

6. LONG-TERM DEBT

Payable in annual principal payments of \$20,000, commencing August 30, 2008, plus interest at prime rate, collateralized by a charge on land and building included in assets held-for-sale. As at March 31, 2015, there has been no settlement of the mortgage.

	March 31, 2015	September 30, 2014
Principal and accrued interest	\$ 85,916	\$ 84,647
Less current portion	(85,916)	(84,647)
	\$ -	\$ -

7. SHARE CAPITAL AND RESERVES

a) Authorized share capital

Unlimited number of common and preferred shares without par value.

b) Issued share capital

There were no shares issued during the period ended March 31, 2015 and the year ended September 30, 2014.

c) Stock options and warrants

The Company has a share purchase option plan approved by the Company's shareholders that allows it to grant share purchase options, subject to regulatory terms and approval, to its officers, directors, and employees. The share purchase option plan (the "2011 Rolling Option Plan") is based on the maximum number of eligible shares equaling a rolling percentage of 7.5% of the Company's outstanding common shares, and may not exceed 5% to any individual, calculated from time to time. Pursuant to the 2011 Rolling Option Plan, if outstanding share purchase options are exercised or expire, and/or the number of issued and outstanding common shares of the Company increases, then the share purchase options available to grant under the plan increases proportionately. The exercise price of each share purchase option is set by the Board of Directors at the time of grant but cannot be less than the market price (less permissible discounts).

Under the Plan, if an optionee ceases to be a director, officer or employee for any reason other than death, this option shall terminate as specified by the Board and all rights to purchase common shares under such option shall cease and expire and be of no further force or effect. Options have a maximum term of five years and depending on who the optionee is and whether the optionee resigned or is terminated, will terminate on the effective date of resignation or termination or 18 months following termination, except in the case of death, in which case they terminate one year after death. Unless otherwise noted vesting of options is made at the time of granting of the options at the discretion of the Board of Directors. Vested options are exercisable at any time.

The Company granted 3,650,000 stock options to directors, officers and employees of the Company during the periods ended March 31, 2015. The Company did not grant any stock options for the period ended March 31, 2014

GWR RESOURCES INC.

Balance, March 31, 2015 exercisable	5,150,000	\$ 0.10	-	\$ -

As at March 31, 2015, incentive stock options were outstanding as follows:

	Number	Exercise price	Expiry date
Stock Options	700,000	\$ 0.20	September 3, 2015
	400,000	0.42	February 24, 2016
	400,000	0.25	December 28, 2016
	3,650,000	0.07	March 25, 2017
	5,150,000		

8. RELATED PARTY TRANSACTIONS

Key management personnel comprise of the Chief Executive Officer, Chief Financial Officer, and Directors of the Company. The remuneration of the key management personnel is as follows:

- Included in management and consulting fees was \$20,000 (2014 - \$60,000) for services provided by the CEO.
- Included in consulting fees as part of exploration costs of \$12,000 (2014 - \$89,259) for services provided by the former VP of Exploration.

An amount of \$84,840 (2014 - \$79,362) included in accounts payable is due to key management. All balances are unsecured, non-interest bearing, have no fixed repayment terms, and are due on demand.

During the period ended March 31, 2015, the Company received an advance of \$40,000 from a director of the Company to meet short-term cash requirements. The balance is unsecured, non-interest bearing, has no fixed repayment terms and is due on demand.

GWR RESOURCES INC.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

FOR THE PERIOD ENDED MARCH 31, 2015

9. CAPITAL MANAGEMENT

The Company manages its capital to ensure that there are adequate capital resources to safeguard the Company's ability to continue as a going concern through the optimization of its capital structure. The capital consists of shareholder's equity comprising: issued capital; share purchase warrants; reserves and deficit. The basis for the Company's capital structure is dependent on the Company's exploration programs. There were no changes in the Company's approach to capital management during the current period and the Company is not subject to externally imposed capital requirements, except when the Company issues flow-through shares. The Company is subject to certain requirements in relation to its use of funds raised through the issuance of flow-through shares. These funds have to be incurred for eligible exploration expenditures in accordance with Canadian federal and certain provincial income tax acts.

10. SUPPLEMENTARY CASH FLOW INFORMATION

During the period ended March 31, 2015, the Company:

- a) Settled \$3,000 of accounts payable through the exchange of property, plant and equipment.

During the period ended March 31, 2014, the Company:

- a) Included \$300,409 in accounts payable and accrued liabilities capitalized to exploration and evaluation assets;
- b) Included \$645,966 in receivables and deducted from exploration and evaluation assets the minimum BC METC claim refund due from the Canada Revenue Agency.

11. COMMITMENTS AND CONTINGENCIES

From time to time, certain claims, suits, and complaints may arise in the ordinary course of operations against the Company. In the opinion of management, any provisions related to such claims, if any, will be accrued when the claims meet the recognition criteria for contingent liabilities. Management is not aware of any unrecorded material contingent liabilities which require recording in the financial statements for the period ended March 31, 2015.

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT

The Company is exposed to the following financial risks:

- Market Risk
- Credit Risk
- Liquidity Risk

In common with all other businesses, the Company is exposed to risks that arise from its use of financial instruments. This note describes the Company's objectives, policies and processes for managing those risks and the methods used to measure them. Further quantitative information in respect of these risks is presented throughout these financial statements.

General Objectives, Policies and Processes

The Board of Directors has overall responsibility for the determination of the Company's risk management objectives and policies and, whilst retaining ultimate responsibility for them, it has delegated the authority for designing and operating processes that ensure the effective implementation of the objectives and policies to the Company's finance function.

The overall objective of the Board is to set policies that seek to reduce risk as far as possible without unduly affecting the Company's competitiveness and flexibility. Further details regarding these policies are set out below.

GWR RESOURCES INC.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS

(Expressed in Canadian Dollars)

FOR THE PERIOD ENDED MARCH 31, 2015

12. FINANCIAL INSTRUMENTS AND RISK MANAGEMENT (cont'd...)

a) Market Risk

Market risk is the risk that changes in market prices, such as interest rates, commodity prices, and equity prices will affect the Company's income or the value of its holdings of financial instruments. The objective of market risk management is to manage and control market risk exposures within acceptable parameters, while optimizing the return. As at March 31, 2015, the Company is not materially exposed to market risk.

b) Interest Risk

Interest risk is the risk that the future cash flows of a financial instrument will fluctuate because of changes in market interest rates. The Company has not entered into any derivative contracts to manage risk. The Company's policy as it relates to its cash balances is to invest excess cash in a reputable Canadian chartered bank.

As of March 31, 2015, the Company's exposure to interest rate risk is as follows:

- Cash	- Variable interest rate
- Current portion of long-term debt	- Variable interest rate at prime rate
-	-

A change in interest rates of 1% would not materially affect cash or the current portion of long-term debt.

c) Credit Risk

Credit risk is the risk of financial loss to the Company if a customer or a counterparty to a financial instrument fails to meet its contractual obligations. The Company's exposure to credit risk is on its cash and reclamation deposit.

Amounts receivable mainly consists of input tax credit receivables. Due to the nature of the assets, management believes that the credit risk concentration with respect to receivables is remote and no collateral is held as security for these balances. As at March 31, 2015, the Company had a receivables balance of \$23,503 (September 30, 2014 - \$30,677).

d) Liquidity Risk

Liquidity risk is the risk that the Company will not be able to meet its financial obligations as they become due. The Company's policy is to ensure that it will always have sufficient cash to allow it to meet its liabilities when they become due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. The key to success in managing liquidity is the degree of certainty in the cash flow projections. If future cash flows are fairly uncertain, the liquidity risk increases.

The Company anticipates that the current funds are not sufficient to support its corporate and administrative obligations on a continuous basis. Management is evaluating other alternatives to secure financing including additional equity offerings. However, there is no assurance that these initiatives will be successful. The amount and timing of additional funding will be impacted by among other things, the strength of the capital markets.

Determination of Fair value

Fair values have been determined for measurement and/or disclosure purposes based on the following methods. When applicable, further information about the assumptions made in determining fair values is disclosed in the notes specific to that asset or liability.

The Statement of Financial Position carrying values for: cash; reclamation deposit; receivables; finance leases; long-term debt; and accounts payables and accrued liabilities, approximates fair value due to their short-term nature.

GWR RESOURCES INC.

NOTES TO THE CONDENSED INTERIM FINANCIAL STATEMENTS
